TRIP TO BLUEGRASS.

Louisville Heads of Houses to Spend Three Days in Kentucky Towns.

To Leave For Tour On Tuesday, July 28.

TO BE AT MT. STERLING TODAY

Heads of Houses excursion, with a three days' swing through the Bluegrass section of Kentucky, was to leave Louisville July 28, and return home July 30. During the trip many of the most important of the cities will be visited with a view to cementing the friendship already existing between the Louisville merchants and the people of those prosperous cities.

These are the cities to be visited: July 28—Frankfort, Georgetown, Paris and Cynthiana. July 29—Lexington, Mt. Sterling, Winchester, Richmond, Lancaster and Stanford.

July 30—Danville, Harrodsburg, Nicholasville, Versailles, Midway, Shelbyville and home.

This excursion is to be run under the auspices of the Board of Trade, Commercial Club, Travelers' Protective Association, Retail Merchants' Association and Merchants and Manufacturers' Association.

BIG MORTGAGE.

Lexington and Interurban Borrows \$600,000.

The Lexington and Interurban Railways Company from Lexington to Georgetown, Paris, Versailles and Frankfort on July 21 gave a lien on a large part of its property to secure a loan of \$600,000. The mortgage is to secure \$600,000 gold bonds issued for a period of thirty years at 5 percent, dated August 1, 1908. The money is to be used in further extensions of the company's interurban railway system.

Excels All Others.

Mr. John Lowry, Wilmore, Ky., says: "I cured some very sick chickens with your Boudier's and find it to be the best poultry remedy I have ever used." Sold by W. S. Lloyd.

Newspaper Man Dies at Somerset.

At Somerset, Ky., Col. F. J. Campbell, editor of the Somerset Journal, a widely known newspaper man in Kentucky, died at his home Tuesday evening, July 21, in his sixty-fifth year. Col. Campbell was a veteran of the Union Army, but always an uncompromising Democrat. During the last three years of Gov. Beckham's administration he was a member of the State Board of Equalization from the Eleventh Congressional district.

Fire at Augusta, Ky.

Augusta was visited Wednesday morning by one of the most serious fires in its history. Stockle & Smith's wholesale and retail drug store, the meat market of Ed Gubser, the photograph gallery of L. C. Baker and restaurant of F. L. Sampson burned. The total loss will be about \$20,000, with about \$10,000 or \$12,000 insurance.

If you haven't the time to exercise regularly, Doan's Regulents will prevent constipation. They induce a mild, easy, healthful action of the bowels without gripping. Ask your druggist for them. 25c. \$1-5.

Over 4,000,000 bushels of coal, the first river shipment since April, left Pittsburgh Thursday morning for Southern points.

APPLY TORCH.

Three Stations of Illinois Central Railway Burned.

Permission to Soldiers to Camp on Property Said to Be the Cause.

Night riders burned the stations of the Illinois Central railway early Wednesday morning at Gracery, in Christian county; Cerulean, Trigg county, and Otter Pond, Caldwell county.

Each depot was set on fire shortly after one o'clock.

The Illinois Central gave permission to the Madison soldiers on duty in the night rider region to camp on its property at Cobb, near Otter Pond. This action aroused much indignation.

Recently when a squad of soldiers visited Cobb they were ordered off, food was refused them and they were told they would not be permitted to establish a camp.

At Gracery, shortly after one o'clock Wednesday morning, twenty masked night riders captured the telephone exchange, took the two operators with them to the station, set the house on fire and then rode away.

At Cerulean, the burning was quickly accomplished.

At Cobb, after the building was fired, the night riders discharged guns and pistols as they rode away.

Each raid was by a different squad of night riders.

Mob Attacks Boats—Coal Barge Blown Up.

Dynamite was used by a mob at Caseyville to blow up towboats and barges belonging to the West Kentucky Coal Company, and hundreds of bullets were fired into the Fannie Wallace and Harvester, wounding John Goodall, engineer on the Harvester, in the stomach and hitting the night watchman in the foot. Without warning to the men on the boats, a loaded barge was blown up by dynamite. One barge was sunk, loss \$2,500 for the barge and \$1,400 for the coal.

A fleet of loaded barges had been accumulated for the Harvester to take south on the first rise in the river, and the boats and barges were lying together. Capt. F. R. Farnsley, of 900 Tennessee street, left his boat, the Harvester, to go to Paduch, and so missed being wounded and possibly killed. John Goodall, the wounded engineer, lives in Gallipolis, Ohio, having become a member of the Harvester crew when that boat ran from Pittsburgh to Southern points with coal. He was asleep when the attack began, and was shot before he had time to dress completely. The men on the boats could not tell who their assailants were, but all clues point to disgruntled miners.

Calling For Men.

At Pittsburg, Pa., July 21, the H. C. Frick Coal Company, the fuel end of the United States Steel Corporation, placed orders for men to work at the coke ovens in the Connellsville field. A stipulation is made that all must be Americans, or residents of the United States, thus trying to do away with the illiterate foreigners.

Mountain Soldier Best Marksman at State Rifle Range.

At the State rifle range at Frankfort J. W. Wilson, of Company H, of Middleboro, broke all records for shooting at 800 yards. He made a perfect score, hitting the bullseye ten straight times. He hit the bullseye each time on the two range shots which are allowed.

NEW TRIAL

Judge Landis Reversed in His Decision Fining the Standard Oil Company Twenty-Nine Millions.

The Three Judges Are Unanimous In Giving a New Hearing.

On Wednesday in Chicago the United States Court of Appeals handed down its decision in the appeal made by the Standard Oil Company of Indiana from the verdict rendered in April, 1907, by which the company was found guilty of accepting rebates and fined by Judge Landis \$29,240,000.

The decision of the three judges was unanimous.

The Court of Appeals differs with the trial court on three vital points, holding that Judge Landis excluded evidence which should have been admitted to show proper intent in the rate the company paid on oil; that he erred in considering each car lot a separate offense, and that in imposing the maximum fine for the first offense he abused the discretion vested in the court.

PHONOGRAPH SPEECHES

Mr. Bryan Turns Over Money to the Campaign Fund.

At Fairview, Lincoln, Neb., most of the day was spent by Mr. Bryan in delivering short speeches on the issues of the campaign into a phonograph. The intention is to give the speeches wide distribution throughout the country. Of his own volition Mr. Bryan announced that he had received \$500 from each of the two concerns as compensation for his work.

When confronted with the suggestion by a newspaper man that he had accepted money from corporations, and had thereby acted contrary to the declared policy of the Democratic party, Mr. Bryan stated that the whole proposition was a commercial one and that he very properly could accept pay for his labors. The remittances were not retained by him, but he turned them over to the State and County Democratic Committees respectively as a personal contribution.

License Denied.

The initial clash between attorneys for the License Board, and attorneys representing saloonkeepers whose applications for renewal of saloon licenses in Louisville are being opposed, came on Tuesday of last week. In all, ten remonstrances were considered. The session lasted four hours. During that time the applications of four saloon men were turned down.

That the saloon men mean to fight the crusade being made against them to the bitter end was evidenced by the legal array which appeared in behalf of those against whom remonstrances have been filed.

An Excellent Beginning.

The appointment of a special commission to investigate the condition of the county roads which have constituted a standing discouragement to the pilgrim whose Mecca is Louisville, is a step in the right direction, and the county will felicitate itself upon a good beginning.

LIBERTY LEAGUE

Breeders and Representatives of Allied Industries Meet at Lexington to Form Alliance.

[Lexington Herald.]

Five hundred men, breeders of thoroughbred horses, land owners, business men, tax-payers and citizens interested in the proposed movement to organize a Personal Liberty League in the State of Kentucky met at the Court House in Lexington on July 18th.

Leading breeders of horses were present from various counties.

The interest manifested was extraordinary and the attendance far surpassed the most sanguine hopes of those prime movers who realize that the present situation in the horse industry is in such condition as to demand immediate attention.

Many speeches were made and a Resolution Committee was appointed and reported as follows:

RESOLUTIONS ADOPTED.

"Be it resolved, that a committee, consisting of the following men, Messrs. E. F. Clay, Johnson N. Camden, John B. Castleman, Thos. A. Combs, Henry L. Martin, Thos. C. McDowell, Shelby T. Harrison, J. R. Morton, R. H. Anderson, Jovett Shouse, Henry Watterson, W. F. Blair, John C. Mayo, John G. Stoll, J. Thos. Wilkerson and W. W. Adams, be appointed by this meeting and requested to report at a meeting to be held in Lexington, Ky., on Saturday, August 1st, 1908, a constitution and by laws for a Personal Liberty League, and officers of said League, if in their judgment, the formation of such a League is advisable."

TAFT

Submits His Speech to Roosevelt.

May Be His Most Important Campaign Utterance.

President Roosevelt reviewed in advance the speech Judge Taft delivered in Cincinnati yesterday. "I have decided to make this speech what may be my most important utterance of the campaign. I have the highest regard for the President's judgment regarding the subjects to be dealt with, and a keen appreciation of his wonderful ability for forceful expression. I want his judgment and his criticism, and this cannot be satisfactorily obtained at long range, so I have decided to go to Oyster Bay." This statement made by Mr. Taft indicates his view point regarding the announcement of his intended trip, which he says was taken on his own and not the President's initiative.

HORSES.

Government May Begin Raising Mounts to Maintain Supply.

Unofficial announcement is made that arrangements are under way for the government to begin raising horses at Ringold in Texas. Lately some of the largest contractors, who have been for years supplying the Department of Texas, announced that they could not continue their contracts as there were no horses of the standard to be had.

A HARD STRUGGLE.

Many a Mt. Sterling Citizen Finds the Struggle Hard.

With a back constantly aching, With distressing urinary disorders, Daily existence is but a struggle. No need to keep it up.

Doan's Kidney Pills will cure you. Mt. Sterling people endorse this claim:

L. G. Howard living on West Locust St., Mt. Sterling, Ky., says: "Doan's Kidney Pills cured me two years ago of kidney complaint, and since that time I have recommended them to a great many persons. Prior to using Doan's Kidney Pills I had occasional attacks of backache for over ten years but never paid any attention to it until about two years ago when I was in a miserable condition. My kidneys seemed to give out all at once. The least work I did brought an aching through my back and finally I became so bad that I was not able to stand. There was also an intense weakness of the kidney secretions which caused me additional annoyance. I finally procured Doan's Kidney Pills at F. C. Duerson's drug store, and as previously stated that remedy freed me of every sign of the complaint. My wife keeps them in the house at all times and says that she never found a remedy that has proven of such great benefit to her."

ORDINANCE.

An Ordinance Causing the Opening Up, Grading and Macadamizing of So Much of Willow Street As is Situated Between Mitchell Avenue and Jameson Street, in Mt. Sterling, Kentucky.

Be It Ordained By the Board of Council of Mt. Sterling, Kentucky:

That so much of Willow Street as is situated between Mitchell Avenue and Jameson Street, division of Mattie Lee, in the City of Mt. Sterling, Kentucky, be opened, widened and so much of the lots abutting the west side of said Street be graded and made a part of said Street for any and all purposes necessary to the general use of the traveling public, so that said Street when graded will not be less than thirty (30) feet in width, and that said street be thereafter macadamized.

That the expense of both grading and macadamizing said Street be paid by the City.

This ordinance shall take effect from and after the date of its passage and publication as required by law.

Attest: H. M. Rnsco, City Clerk.

For Congress, **ALON DAVIS**, of Morgan County.

"The gospel is the power of God unto salvation to everyone that believeth."

If the righteous scarcely be saved, where shall the ungodly and the sinner appear?

"By grace are ye saved through faith; and that not of yourselves; it is the gift of God."

Have you heard Rev. Wharton? If not, you have missed a great incentive to better living.

What shall it profit a man, if he shall gain the whole world, and lose his own soul?

What shall a man give in exchange for his soul?

The attendance on Monday night was the largest since the revival began. While this campaign for right living is in progress let there be a sympathetic co-operation by all Christians.

Are you ready, are you ready, are you ready for the judgment day? are the words in a song popular at the revival now in progress. What is your answer? We shall all stand before the judgment seat of Christ.

QUIT SMOKING.

Smoke-consuming devices are to be installed on all railroad engines in or entering the City of Louisville. Some roads adopt them this week, others as soon as changes can be made. Managers of manufacturing plants are considering the same course. If cigarette, cigar and pipe smokers could also be thus equipped a boon would come to the public.

CAMPAIGN FUND PUBLICITY.

The independent newspapers generally agree that the Democrats have decidedly the best of the situation with respect to the question of publicity of campaign funds. The Springfield Republican, a newspaper that cannot be accused of partiality to the Democrats, declares that Secretary Taft and the Republican manager have not gone half far enough, pointing out the fact that contributions to the Republican campaign treasury are to be made public only after the election.

Secretary Taft's announcement that no money will be accepted from corporations is another effort to keep pace with the Democrats. Lexington Herald.

THE LABOR VOTE.

The New York World has secured statements from the labor leaders throughout the country as to the attitude of union men in the Presidential contest and as to the effect of the declaration of Gompers in favor of Mr. Bryan. The statements made to the World indicate that labor generally will follow the Gompers lead. Many of the local leaders say that in their localities labor is for Bryan regardless of the attitude of Gompers. Some who are inclined to criticize Gompers for his conspicuous declaration in favor of Bryan do not hesitate to say that his attitude is that of labor generally. It is certain that Taft can command nothing like the labor support that was given to the Republican party in 1904. It would doubtless be an exaggeration to claim so. Lexington Gazette.

IMPORTANT.

City Council Will Consider Contract for Lights and Water.

Comparison With Other Cities. Citizens Should Attend.

The City Council will meet in regular session on next Tuesday evening. Financially the most important matter to be considered is the renewal of contract with the Mt. Sterling Water, Light & Ice Co. for lights and water for a period of three years. The question will probably be settled at that time.

Ordinarily public officials are pleased to have opinions of citizens concerning important public measures. An opportunity has been given for such expressions and is still open until Tuesday night. If citizens think that the city is paying too little or too much money for the service rendered, they can now say so. They should not wait until the contract is closed and then open bottles of criticism, censure or wrath upon the Council if the contract is not to their liking.

The city is now paying yearly for electric lights about \$4,500; for water about \$4,000; total, about \$8,500; or for the three years about \$25,500.

The revenue derived yearly from taxation of property is about \$16,000, hence the lights and water cost each year fully one-half as much as the revenue received from this source.

On Monday morning we told Mr. Redmond, in charge of Mt. Sterling Water, Light & Ice Co.'s office in this city, that we would in this issue call attention to the contract and asked if he had anything to say. He will at council meeting read letters received from other towns relative to water rates.

We bring before the people of our city certain facts from which they can make observations. The following towns get and pay as follows:

100 hydrants at \$10 each—\$4,000.	Our city pays for 140, but thus far have ordered 95.
GEORGETOWN.	
77 hydrants at \$40 each. Water also used for flushing sewers.	
ASHLAND.	
90 hydrants at \$44.49.....\$4,000	
50 hydrants at \$40.....2,000	
1 hydrant.....20	
141.....\$6029	
Water also for flushing sewers.	
RICHMOND.	
92 hydrants at \$50.....\$4,600	
Water also for sprinkling and sewers.	
SHELBYVILLE.	
57 hydrants \$46.49.....\$2,650	
Water for sewers when completed.	
FRANKFORT.	
100 hydrants at \$62.50.....\$6,250	
20 hydrants at \$50.....1,000	
LEXINGTON.	
529 hydrants at \$50.....\$26,450	
Water for sewers and gutters.	

No rates are given for electric lighting or domestic water. Whether or not the original contracts with or cost of construction for these cities and Mt. Sterling will be referred to we do not know. We present these facts so that attention of our citizens may be called to contract. We presume an opportunity will be given to ask questions or express an opinion.

THE COUNTRY NEWSPAPER

Should Be Clean, Have Character and Conscience, and Be Brave Enough to Tell the Truth.

Three prizes were offered at the meeting of the Missouri Press Association for the best articles on "The Real Mission of the Country Newspaper." Thirteen entered the contest. The paper winning the first prize was written by W. L. Nelson, editor of the Buncombe Eagle, and is here given:

The real mission of the country newspaper is to give the news. Without news there is no newspaper. Facts and figures, not rumors or hearsay, constitute news.

In the garnering of the news harvest the local field should be looked upon with the most favor. In a country newspaper nothing can take the place of country news. The story of the wide world is told under glaring headlines and catchy captions in the pages of the city papers—told so fully and so fast that competition in this well filled field is folly.

The local field is for the country newspaper, which alone gives to its readers the story of "you all's house," sympathizing with those who sorrow and rejoicing with those in merry mood. More strictly speaking, then, the mission of the country newspaper is to give the local news.

The legitimate local field is further limited by careful selection. No newspaper should publish all the news—no more than should a father, sitting at his own fireside, repeat all that he may have heard during the day. A country newspaper must be clean, have character and conscience and be able to command confidence. The best country newspaper is brave enough to tell the truth when it should be told and big enough to leave untold a secret story of shame and sin when a "scoop" would only add to the sorrow.

Important as is the news, no newspaper fulfills its high mission when it does no more than give the news. A newspaper, and especially a country newspaper, must be more than a mere photograph. It must stand for something. It must be in sympathy with those whom it serves. It is possible for a newspaper to point out to the people, many of whom are its patrons, the pathway to local possibilities which means progress. Above all, the newspaper should not fail to advocate those things which mean better living and higher thinking.

Finally, then, let it be said that the real mission of the country newspaper is to give the local news accurately and fearlessly, but in kindness, giving no unnecessary publicity to wrongdoing, yet sparing not frauds nor shams, recognizing good wherever found, striving to build up rather than tear down, so that the files of the paper shall constitute a helpful history, accurate, yet showing the sunshine rather than the shadows.

Celebrate Their Fifteenth Marriage Anniversary.

Hon. and Mrs. William A. Young, of Morehead, celebrated the fifteenth anniversary of their marriage in their paternal new home, "Fernleigh," on Tuesday, July 21, in a most charming and elaborate manner. About two hundred guests were in attendance, many of them from different cities and States. The guests were received by City Mayor, James Clay and Mrs. Cora Wilson Stewart. For a time they viewed with exclamations of wonder and delight the magnificent presents of cut glass which covered two long tables and represented in intrinsic value an enormous sum of money.

At 9:30 the strains of Mendelssohn's wedding march were sounded by Mrs. Dr. Homer L. Wilson, and preceding the host and hostess and their attendants, the ribbon bearers, Mesdames James Clay, Guy Snyder, H. S. Chiles and G. C. Nickell came and stationed themselves, making a passway for the bridal party. The attendants, Senator and Mrs. Thos. H. Paynter and Judge and Mrs. C. C. McChord followed. The gentlemen wore the conventional black. Mrs. Paynter wore a becoming gown of embroidered chiffon, and Mrs. McChord was resplendent in a silver spangled net. The host and hostess descended the stairway last, taking their places beneath a beautifully decorated arch. Above their heads white chrysanthemums were arranged to form the letters "C" and "Y," which stood for Clay and Young. The host wore a handsome dress suit of black and the hostess surpassed the bride of fifteen years ago in her exquisite gown of broadened satin, trimmed in rose lace and pearls. One of the most popular and handsome couples in Kentucky stood the object of admiration of a large number of friends, while Rev. F. C. Button commented in his eloquent style on the occasion of the celebration and then invoked upon them the rich blessings from above.

Amid sweet strains of music congratulations were offered, and later the guests were served to a most delicious collation, prepared by Benedict, a celebrated Louisville caterer. The dining room was like fairyland with its beautiful lights, mahogany furniture and artistic decorations of white and green. White satin ribbons and running asparagus were deftly woven into ropes from ceiling to the corners of the table, where bunches of white chrysanthemums were tied. Seated on one side of this table was Mrs. Amelia Young, mother of the host, and opposite was Mrs. Sue Clay, the hostess' mother, who served coffee in a most charming and graceful manner. Two more distinguished looking mothers could not be found anywhere, and they presented a beautiful picture indeed. Misses Elizabeth Raine and Lottie Stewart served mints. The young people were served in the breakfast room, where Mrs. M. E. Raine and Mrs. F. C. Button presided at the coffee and Misses Ethel Houston and Nell Miller served mints. The ices and cakes were in the shape of hearts, decorated with a cupid. They matched in color the decorations of the room, being green and white in the dining room and pink and white in the breakfast room.

The bride's cake was cut by the hostess and each young lady and gentleman then cut for the ring, dime, thimble and darning needle which it contained. This occasioned much merriment. After refreshments were served the guests found their way to a fern parlor in an alcove, where Mrs. Judge Allie W. Young and Misses Hattie Button and Dixie Nolin served trappé.

Kentucky beauty and gallantry vied with each other as to who could look the most charming and who could honor next the noble couple whose union they were celebrating.

Besides Morehead people there

were present: Mr. and Mrs. Alfred Grooks, H. S. Goodpastor, Judge C. W. Goodpastor, Mrs. Essey Goodpastor, Mr. and Mrs. Ben Wright, Owensville; Mrs. Dr. Jess. Cavens, Miss Anna Cavens, Miss Mayrie Miller, Lexington; Hon. and Mrs. C. C. McChord, Mrs. Ellen Rice, Mrs. Maria Boyce, Louisville; Mrs. Senator R. H. Ward, Henderson; Senator and Mrs. Thos. H. Paynter, Washington, D. C.; Mrs. Thos. Kentner, Misses Kate Meinhardt and Nona Richardson, Ashland; Mrs. Sue Clay, Tyler, Texas; Miss Josie Gearhart, Huntington, W. Va.; Mr. Jesse Peers, Richmond, Va.; Miss Robena Kennedy, Cincinnati; Mrs. Amelia Young, Mt. Sterling.

WILL NOT ACCEPT NOMINATION

Hearst Not to Run for President.

William Randolph Hearst, who arrived from Europe Saturday, when asked if he would accept the nomination for the Presidency on the Independence League ticket, replied:

"I cannot. I have given my word that under no circumstances will I be a candidate and I will abide by it."

HEARST TO BE CHAIRMAN.

The Independence party national committee planned for temporary organization for the opening of the national convention on Monday night in Chicago as follows:

Temporary Chairman—William R. Hearst, New York.
Temporary Secretary—W. A. Deford, New York.
Sergeant-at-Arms—Frank Brust, Illinois.

Suppressing That Little Item.

Sometimes good judgment demands the suppression of some news item to favor some patron of the paper. The request of a patron to keep some but little important item out of the paper should be considered, if it is sensibly and politely put, but if the patron comes storming into the office and threatens to withdraw his patronage if a certain item is not killed tell him that the paper has two or three other patrons who might be offended if the item was kept out, and publish it, unless there are weightier reasons for not.

DON'T WORK IN MT. STERLING

Policemen Who Drink On Duty Will Be Dismissed.

Emmett Mullin, a patrolman, was dismissed from the police force in Louisville because of his repeated failures to make posts. Four others were each fined five days' pay on the charge of drinking while on duty.

Following the disposal of these cases the Board of Public Safety issued notice to the effect that in the future any policeman brought before it on the charge of drinking intoxicants while on duty, and the charge is proved, will be peremptorily dismissed from the service.

SMALL ACREAGE OF TOBACCO

In Burley District Only 18 Per Cent of Last Year.

Government Publication Says Quality of Yield Probably Below Normal.

The July Crop Reporter, by the Agricultural Department, concerning the tobacco crop of the Burley district, says:

"There was a small area of tobacco planted in this district, it being only 18 per cent of last year. Dry weather delayed the preparation of land and transplanting in some counties and the prospect is not good for a fine crop.

"The condition of the Kentucky tobacco crop on July 1 was 80 per cent, as compared with 78 in 1907, and a 10-year average of 84. The preliminary estimate of the Kentucky acreage this year is 197,246 acres, which is 73 per cent of last year's acreage."

IN THE DARK DISTRICTS.

"Paducah District.—The high prices prevailing in this district have stimulated planting, which is reported to be 28 per cent. larger than last year. The prospect is unfavorable for good quality or yield.

"Upper Green River District.—The planting is about 9 per cent. larger than last year. The prospect on July 1 does not indicate a fine crop.

UPPER CUMBERLAND DISTRICT.

Upper Cumberland District.—The acreage is about 50 per cent. larger than last year. Prices have been high. The crop is not in as good a condition as a year ago.

Clarksville and Hopkinsville District.—Plants were transplanted earlier than usual, with 22 per cent. in acreage. The condition on July 1 was not good.

Will Aid Bryan.

Wiley J. Phillips, a delegate from California to the National Prohibition Convention is the editor of a Prohibition newspaper at Los Angeles, and visited Mr. Bryan on his way home from Columbus, Ohio.

"We do not regard Mr. Bryan as an advocate of the main plank of the platform we adopted at Columbus," said Phillips, "but we respect him very highly as a total abstainer, who sets an example that makes for the advancement of our cause.

"On the other hand we have personal objections to Judge Taft on this ground, so that no genuine Prohibitionist could consistently vote for the nominee.

Get-Rich-Quick Indicted.

The Federal grand jury in Chicago indicted 29 alleged "get-rich-quick" concerns involving the use of mails to defraud clients out of \$5,000,000.

Among those indicted were Talton Embury, of Cincinnati, and Hiram E. Rose, of Owensboro, Ky., charged with defrauding stockholders out of \$500,000 in selling stock of the San Miguel plantation company, a fraudulent concern.

BRONSTON TRIAL

Before Fayette and Clark County Jury.

In securing a jury for the second trial of Chas. Bronston, the Lexington lawyer for shooting at W. R. Milward, at Lexington, it was necessary to summon 100 men from Clark. Of these, 6 were chosen to complete panel and are J. O. Pearsall, Joseph Lindsay, R. A. Coates, Clyde Gaines, H. M. Benton and S. Dinelli.

Over 750 men in Fayette were examined for jury service.

Mr. Bronston is being defended by an array of lawyers. Those assisting him in the case are Judge Jere R. Morton, George Webb, Judge J. H. Mulligan, Wallace Muir, G. Allison Holland and D. C. Hunter, of Lexington, and B. R. Joutet and T. H. Haggard, of Winchester. Col. J. R. Allen and County Attorney George R. Hunt are conducting the prosecution.

The case is being fought hard. The jury reported the defendant guilty and placed his fine at \$50 and no costs. Question! Why should so conspicuous a man as Mr. Bronston carry a pistol? If a lawyer violates the law, what can be expected from other men?

Blue Grass Fair Justly Praised.

Although without State aid and dependent altogether upon the enterprise and support of its stockholders and the patronage of the people of Central Kentucky, the Blue Grass Fair, held at Lexington, Kentucky, has already taken rank with the foremost State fairs of America. It comes this year the week of August 10th to 15th. Its premium list offers an actual value of \$25,000, leaving out of account the speed program.

The Blue Grass Fair is the great horse show of America and is perhaps the best horse show held anywhere in the world.

It is both wise and commendable in the management of the Blue Grass Fair that other classes of live stock have not been neglected. In the Beef Cattle Department liberal provision is made.

The Swine Department has been increased through the addition of classes for Tamworths and Hampshires, while breeds of Sheep this year, provision for which have heretofore been omitted, include Hampshires, Dorsets and Cheviots.

1,131 Boys Took Part in Run.

Those in charge of the recent New York-Chicago relay race say that during the race 1,131 boys ran 1,029 miles, involving 1,250 relays. Some of the boys ran twice. The actual running time was 114 hours 46 minutes, an average of 9.5 miles per hour. The average time per mile was 6 minutes 19 seconds. The message from Mayor McCallan to Mayor Busse reached Chicago 11 hours and 51 minutes ahead of schedule time.

Golf Rules Worth Heeding.

Lord Avebury, the lord rector of St. Andrew's University of London, in the course of an evening address offered the following advice: "Keep your eye on the ball. Keep straight. Keep in the course. Take time. Do not press—never up, never in. Don't lose heart. Be temperate in all things. Keep your temper, or you'll lose the game." From which it may be seen that the rules of golf make a fairly good philosophy to live by.

Coal Dust and Tuberculosis.

Tuberculosis is much less common among coal miners than among other classes of people. According to the United States census statistics, miners and quarrymen occupy third place in the scale of tuberculosis mortality, only bankers and farmers being more immune. Coal dust antagonizes tuberculosis when already present, and many physicians have treated the disease by inhalation of coal dust.

Chess as a Ceremonial.

Arthur Aull's idea of chess: There is one amusement that is not quite as enervating as a funeral. The game of chess. Two men playing this game sadly gaze before them for hours at a time without ever speaking. If you have a dead friend, the only ceremonial in his honor we could think of would be to go out and play a game of chess on his grave.—Kansas City Star's Missouri Notes.

Exercise for Nervousness.

Exercises conscientiously gone through in your bedroom night after night, a few breaths of fresh air taken every day in the open air, and a brisk, even walk, during which care is peremptorily banished from the mind, will either separately or collectively accomplish as much, if not more, toward reducing nervous life than a sea voyage under the best conditions.

Origin of Cards.

The origin of cards lies far back in the hidden antiquity of Asia, no record so far having been found to unravel the source. It was from the distant Orient that cards, along with dominoes, were first introduced into southern Europe, Spain and Italy, especially. The earliest of these cards have been lost, unfortunately, and no record of them preserved.

Apples for Sleeplessness.

The apple is such a common, and well known fruit that few people are familiar with its remarkable medical qualities. But one of the best things a person can do to keep in good health and to keep sound is to eat an apple just before going to bed. The apple is an excellent brain food, because it has in easily digested shape, more phosphoric acid than any other fruit.

GUILTY

President Roosevelt Directs Bonaparte to Push Case Against Standard Oil Co.

Reversal of Landis' Decision Does Not Affect the Merits of the Case.

President Roosevelt at Oyster Bay Thursday night announced in unmistakable terms the determination of the Administration to proceed with the prosecution of the Standard Oil case. The statement made public by Secretary Loeb, says:

"The President has directed the Attorney General to immediately take steps for the re-trial of the Standard Oil case. The reversal of the decision of the lower court does not in any shape or way touch the merits of the case, except in so far as the size of the fine is concerned. There is absolutely no question of the guilt of the defendants or of the exceptionally grave character of the offense. The President would regard it as a gross miscarriage of justice if through any technicalities of any kind the defendant escaped the punishment.

Rev. J. S. Lyons Pursued Band That Attacked His Son.

After a gang of footpads had assaulted and robbed his son and a boy friend, the Rev. J. S. Lyons, pastor of the First Presbyterian Church, Louisville, pursued the culprits. William, the fourteen-year-old son of Rev. Lyons, and the twelve-year-old son of Mr. Anderson were walking half a block in advance of the party. All the footpads were white and none seemed over eighteen years of age. Two of them seized young Anderson about the arms and others turned their attention to Lyons. He resisted their attempts to rifle his pockets and one of them struck him a heavy blow in the face. Young Lyons made an outcry and Dr. Lyons dashed to his assistance. The thieves fled and Dr. Lyons pursued. The young thieves rushed into a yard and climbed over the back fence into an alleyway.

Knew Twin Brother Was Dying.

At East St. Louis, Ill., July 27, while her twin brother, Fred, was being sucked to his death in the quicksands of Long Lake, near Mitchell, Ill., Merle Huber, seven years old, who was twelve miles away at home alone, shrieked and fell to the front porch in a faint. Neighbors ran to her assistance and revived her.

"Fred is dying. I can hear him calling to me! He is drowning! Let me go to him!" moaned the girl.

Merle made frantic efforts to leave the house, but was held back by friends, who assured her that Fred was all right. The girl could not be quieted.

Five minutes later a message came from Mitchell that Fred Huber had been drowned. When the news reached his sister she again fainted, and up to a late hour last night was in a critical condition.

Man Who Indicted Night Riders Is Shot.

Walter Goodwin, upon whose testimony a number of indictments were secured against the alleged night riders in Trigg county, was waylaid Sunday night in Christian county and shot from ambush.

Attention

A large delegation of Louisville's prominent business men will visit our city on Wednesday, July 29. It is urgently requested that all business men of Mt. Sterling turn out to aid our Business Men's Club in extending to our guests a hearty welcome. To this end it is suggested that all houses in the business district be decorated for that day and that at least one representative from each firm be with the Entertainment Committee of the Business Men's Club at the station to meet and welcome our visitors on their arrival at 10:30 a. m. Wednesday.

Commercial Club Gathering at Paris a Success.

The first annual outing of the Paris Commercial Club last Thursday was a pronounced success. Fully 5,000 people gathered on the Bourbon Fair grounds.

SPEAKING IN AFTERNOON.

After the noon hour the speaking began with Hon. J. T. Hinton as chairman. Congressman W. P. Kimball, of Lexington, and J. Campbell Cantrill, who followed, discussed the importance of united action in the interesting and all absorbing question of municipal development and expansion.

Both speakers alluded to the battle waged by farmers in the effort to combat the trusts and to secure in the sale of their products equitable and remunerative prices.

FRATERNAL CO-OPERATION.

Mr. Kimball was glad to note a spirit of fraternal co-operation prevalent in competing communities. He referred to the success of the farmers movement in combating the Tobacco Trust, and suggested to the various commercial bodies to elicit the support of the farmers and have them become members of their organization.

CANTHILL SPEAKS.

Senator Cantrill spoke of the influence for good shown in the united and concerted action of the Equity Society in suppressing the Tobacco Trust and forcing the average price of tobacco from three cents in Western Kentucky five years ago to an average price in 1907 of ten cents per pound and the corresponding advance in the burley district from 63 cents per pound to better than 15 cents per pound. He urged upon the business men of Paris, and of all Central Kentucky towns to stand together in the upbuilding of the Blue Grass section and to cultivate a fraternal feeling out of which great benefits would be derived.

The Versailles Commercial Club came over fifty strong on a special interurban car. Lexington was only represented by Congressman Kimball and J. W. Porter. Many expressed great disappointment at the manner in which the people of Lexington absented themselves.

Seriously Injured.

Alfred Buckler, a farmer, was seriously injured in an unusual manner Monday afternoon, near Sharpshurg.

He was engaged in mowing hay when the horses suddenly stopped. Mr. Buckler was thrown forward and fell upon the oil can. The spout of the oil can entered his breast to the right of the collar bone and penetrated to a depth of about 44 inches.

WINCHESTER.

(Sun-Sentinel.)

M. P. Baker, proprietor of the M. P. Baker Cigar Factory of this city, filed Tuesday a deed of assignment.

Mrs. James MacEwan, of near Renick, has one cow from which she has made 240 pounds of butter during the year, or an average of about five pounds per week.

It appears that Kentucky "It" at the Denver Convention and that the Winchester representatives were the biggest thing from Kentucky, except Ollie James. One of the papers gives Col. Stuart the following notice:

"The champion talker of all the Kentuckians was Colonel Thomas Stuart. He is a charming story teller. Col. Stuart was the life of the Kentucky delegation and was one of the oldest men the State sent. It was the consensus of opinion of the delegates from Kentucky in honoring Col. Stuart the people of Clark county and the Tenth district always honor themselves."

Opinion Is Divided.

Reports from the Virginia Hot Springs are to the effect that the Millionaire Republicans sojourning at that resort are much divided as to the wisdom of Candidate Taft in going to Oyster Bay to submit to President Roosevelt his speech of acceptance delivered at Cincinnati. Some hold that as the middle classes swear by Roosevelt it is proper for Taft to get "Teddy's" "O. K." Others think that in so doing he will greatly offend the class repeatedly denounced by the President as "rich malefactors."

Price of Platinum Goes Down.

Platinum, which sold at \$40 an ounce a year ago, was quoted at \$20 an ounce in New York last week. The metal is extensively used by jewelers, dentists and manufacturers of electrical and photographic supplies. The price doubled between 1905 and 1907, and is now back to the 1905 price. Nearly all platinum comes from the Ural mountains in Russia.

THE BLUFF WORKED

SHREWD TRICK BY WHICH MERCHANT GOT A START.

His Offer of Gift of \$5,000 Organ to Church Established His Credit As a Good Man to Tie To.

There is a prosperous merchant in Chicago to-day who owes his success to his donation of a \$5,000 organ to a church at a time when he didn't have money enough to buy a hand organ. This donation was a case of bluff, pure and simple, but the bluff worked and resulted in the subsequent wealth of the lucky bluff.

John Smith was seeking capital to start in business for himself, but as he had no security worth speaking of he could not borrow the money he needed.

When he had tried every person he could think of who would be likely to have the necessary cash and the inclination to lend it and had been turned down, he conceived the idea of presenting his church with an organ. Young Napoleon John Smith therefore ordered his organ and allowed the future to look out for itself. The manufacturers of the organ never thought of questioning the financial standing of the philanthropist who was handing out \$5,000 organs and agreed to have the instrument set up in the church on time.

Of course J. Smith was not a bud that was born to blush unseen, nor did he hide his beneficence under a bush. He managed to bring in at least the five stops no matter what the subject of conversation. Not only did the young Napoleon advertise himself by means of the church organ, but the pleased minister and the equally pleased congregation spread the news of his gift.

During this time John did not allow any affairs to grow under his feet. On the pretense of consulting some wealthy member of the congregation about some minor detail of the organ he would drop in an office, and before he left casually would mention the subject of the company he was forming. Most of the men that he thus saw thought it would be a good thing to be associated with a man who was making so much money that he was making to hand out \$5,000 without missing it, so that all were anxious to take stock in J. Smith's company.

Long before the time came for the first payment on the organ Smith had gathered enough money to start his business and was doing so well he had no difficulty in borrowing the amount needed to make the payment. From that time he has made money so fast that now he could give away several \$5,000 organs and pay for them as well.

The Crooked Deal.

John Mitchell, the labor leader, was discussing in Pittsburgh a labor struggle of the past.

"You see, they didn't give us a fair deal," he said. "It looked fair on its face, but really it was like the deal of Harvey Barr of Brimwood."

"Harvey Barr, a successful lawyer, had a wonderful talent for getting the best of people. Even at home he kept his talent in play. His wife said to him one morning:

"Harvey, dear, this is the fifteenth anniversary of our wedding. What are you going to give me?"

"This what I am going to give you," Harvey answered, affectionately, and he handed his wife \$15 in crisp, fresh bills.

"Oh, thank you! And what shall I give you?" the gratified wife asked.

"That meerschaum pipe I've been admiring so long," Harvey promptly announced.

In the evening, on his return home, the pipe awaited him. It had cost just \$15. He lit up and began to color it carefully.

But as the evening wore on his wife seemed ill at ease.

"Where is my present, Harvey?" she said at last, fretfully.

"Why, my dear," Harvey explained, you gave me a pipe. I gave you \$15. Don't you see? We're both even."

Marriage Lengthens Life.

If you desire to live to a good old age you will do well to read what an eminent doctor says on the subject.

He makes, first of all, the bold statement that anyone who desires to live for four score and ten years should get married. In other words, he claims that conjugal life is a necessary condition of longevity. Here are the statistics which support this statement: Of 200 persons who have reached the age of 40 years the doctor found that 125 were married and 75 unmarried. Of 70 men who had reached the age of 50 years he found that 48 were married and 22 unmarried. He next took 38 men, each of whom was in his seventieth year, and he found that 37 were married and 11 unmarried.

Again the doctor has discovered that the mortality among bachelors between the ages of 30 and 45 is as high as 27 per cent, whereas among those who are married it does not exceed 18 per cent. It is evident that we must acknowledge the potency of these figures, and that, if we desire to live to a good old age, we should get married as soon as possible.

Warning Him Up.

"My cocoa's cold," sternly announced the gruff old gentleman to his fair waitress.

"Put your hat on," she sweetly suggested.—Harger's Weekly.

NOT AN AFFAIR OF THE HEART.

Loverlike Attitude, But One in Which Cupid Had No Part.

Long and steadfastly he looked into her eyes. She returned his gaze steadily and without winking. For a minute neither spoke. Then she broke the silence:

"You think it is—" she hesitated.

He gazed into her eyes again—those heavenly, blue eyes.

"I did not want you to understand," he began.

She interrupted him with some impatience. "Case we not understand each other?" she cried. "The suspense of it all is wearing me out. Do you wish me to believe—"

He broke in upon her. "Is not what I wish to believe," he said gently.

"It is what you must know. I have determined—"

She covered her face with her hands as if preparing for the worst. But she was a woman—a proud, imperious woman. She would show him that she could snuff and make no sign. She rose from her chair.

"Well," she demanded.

"It is only a little gratulation," he continued. "Nothing serious whatever. I will give you a prescription. The charge will be \$10."

For she had not looked long and steadfastly into her eyes?

LITTLE WIFE DROVE HIM HOME.

Downfall of Burly Anarchist Saved Day for Reporter.

Gen. Bingham's reference to the professional "reds" as cowards recalls the experience of a New York Tribune reporter who went to a Fourth street saloon the day following John D. Meer's first appearance in Cooper Union. Something about the young man's appearance, which was probably not in harmony with the surroundings, attracted attention, and a burly, full-bearded man approached and asked him bluntly: "Are you a reporter?"

The affirmative reply drew forth a torrent of abuse, which culminated in the command: "Hinaus!" A barroom full of excited, half-drunk anarchists against one slender young man was an unequal arrangement, and the "hinaus" command was about to be obeyed, when a little woman with a child in her arms rushed in and made a straight line toward the bully. He was her husband. She called his name, upbraided him, and then ordered him to "Go home quick!"

He related for a moment, and then humbly followed the little woman while some of his associates showed "Hinaus!" Everybody laughed, the atmosphere in the anarchist center was changed and the reporter remained and got his story.

The Romance of Helium.

Another chapter has been added to the romantic history of the "sun element" by the brief telegram to Prof. Dewar from Prof. Kamerlingh Onnes of Leyden announcing that the latter has succeeded in converting helium into a solid. Helium was first discovered spectroscopically in the sun—hence its name—by Sir Norman Lockyer during the total eclipse of 1868, the first eclipse at which astronomers had the spectroscope at their disposal. Its existence on the earth was unknown until 1898, when Sir William Ramsay found its distinctive yellow line in the spectrum of cleveite, and quite recently it has been found associated with radium, which may possibly prove to be made up of helium and lead. Owing to the intense cold required, all previous attempts to solidify helium have failed, though Prof. Dewar reached 436 degrees Fahrenheit of frost in his liquid air and frozen hydrogen experiments. It is probable Prof. Onnes has reached the absolute zero—450 degrees Fahrenheit of frost—to succeed in freezing helium.

American Life in the Open.

Nor is it only in the field of social gossip that America insinuates upon and always obtains the fullest publicity. Its government lives in a glass house, with all the electric lights turned on, the blinds up and a reporter at each window, if not at each keyhole. The pros and cons of every case celebre are threshed out in the press long before they are brought before the courts. The most unpopular man I ever encountered in America was an Englishman who had the audacity to surround his "place" on the outskirts of Chicago with a high brick wall. High brick walls are bitterly resented as undemocratic. There are no hedges in America, because they do not grow, but because they are an invasion of your neighbor's right to an unobstructed view of whatever you may happen to be doing.—London Chronicle.

For Home Gardener.

Most ladies who plant sweet peas plant them in trenches, but some cause these seem to be unsuccessful, and both methods may be used, and the result depends upon the future work. For those who have not planted them before, both methods may be tried. There is no flower that gives more satisfaction if the cultivation is successful.

A Thought for the Day.

"Make yourselves nests of pleasant things and Rock was made for the house for the soul to live in. It is not possible if you belittle your neighbor or magnify your own importance by continually talking and thinking about your own small concerns. You are a very small fraction of the universe, and there is so much else worth contemplating."

GEORGETOWN

By a Vote of One The People Favor Open Saloons.

Scott county on Friday had a local option election. The pivotal point was Georgetown. The election was full of enthusiasm. A large vote was polled. When the vote was announced it stood: For saloons, 526; against saloons, 523. If there were no irregularities the result of election stands, and for three years there cannot be another vote. We have seen no statement regarding a contest.

The City Council is evidently in favor of saloons, for it is stated that "licenses were issued by the City Council Wednesday and Thursday to all saloon keepers who desired to renew their licenses, special meetings of the Council being called for this purpose. If the "Drys" are victorious the saloons will remain for another year."

In the county (out of town) there are 14 precincts. The vote stood: Against saloons, 1,568; for saloons, 330. The largest vote in any precinct for saloons was at Sadieville and was 56. The vote against saloons there was 139. In another the vote was: For, 4 against, 108. The result in town depends upon the count in Engine House precinct, in which three votes are questioned. The expectation is that a decision will be reached today.

To Avoid Accidental Burning.

Gas will burn and explode if it comes in contact with fire. It can't help it. The risk is largely eliminated by opening the door of the range before lighting the match. Strike the match before turning on the gas. If the match is left open while another match is being gotten, there will be something doing when the two come together. A hard tickle dreads the fire. It is not necessary to try it yourself, profit by the experience of others.

Notice.

All persons are hereby notified that the undersigned is preparing his application and petition and will, on August 4, 1908, make application to the Board of Prison Commissioners of the State of Kentucky, at Frankfort, Kentucky, for a parole under the laws of this State.

The undersigned was convicted of manslaughter, at the January Term, 1907, of the Montgomery Circuit Court, and was sentenced to eleven years in the penitentiary.

Burned Box Car.

Not satisfied with destroying the Illinois Central station at Otter Pond, the night riders, still bent on revenge on the railroad for allowing the State troops to camp on their right of way, applied the torch to the box car which had been set to take the place of the regular depot.

We have had in Louisville practically a free trade in liquor. No liquor dealer could do any wrong. If any man were arraigned for a violation of the law he was sure of the political and the financial backing of the brewery trust or the liquor interests generally.—Post.

POOLED TOBACCO.

Independent Buyer Arrested For Buying Same.

John Marshall, independent tobacco buyer of Bell Point, was arrested on a warrant sworn out by the Board of Control of Franklin county, accusing him of purchasing pooled tobacco.

This is the first arrest in the Burley district under the provisions of the Crecelius bill, passed by the Legislature this spring.

Cincinnati, Kentucky & Virginia Railroad.

Chas. D. Grubbs, R. H. Winn and H. Clay McKee were sent to Chicago last week by the Business Men's Club, together with representatives from North Middletown and Paris, to confer with the executive officers of the C. K. & V. R. Co., which is to build a line from Cincinnati up the Licking Valley and on through Virginia to deep water, with the hope that they would build from Yale via Mt. Sterling, North Middletown and Paris.

They found the officers of the company not at all unfriendly to this proposition, and if a feasible and practical grade can be found and the people of Montgomery and Bourbon counties be induced to liberally aid the enterprise Mt. Sterling can have a new trunk line.

It is an assured fact, that this road will be built.

MAKES GOOD.

Forgiveness From God Restitution To Man.

On Saturday Mr. S. P. Hunt, of this city, received a letter containing a check for \$2.50. About twenty years ago the writer of the letter took watermelons twice from Mr. Hunt's patch, also a small quantity of rabbit meat from a machine. He says in substance that since God has pardoned his sins and he is trying to live right, he wishes to compensate Mr. Hunt for losses sustained.

Brakeman Hughes Loses Life.

Omar Hughes, a brakeman on the C. & O., was drowned Sunday near Manchester, O., in trying to rescue a young lady and gentleman who got beyond their depth.

Science and God.

The late Lord Kelvin's tremendous knowledge never shook his faith. To a man in religious difficulties he once wrote these memorable words: "I have never read any theological book myself, being wholly occupied with science, which I find full of the evidence of God. And I find no reading theological books needed to keep me contented with the religion of my childhood"—Black and White.

From Ancient Mythology.

"Pan" is named after the ancient god, Pan, because of the odd and unreasoning fear which the sight of this heathen divinity was supposed to inspire. Other common words that have a similar source in the mythologies are "vulcanite," from Vulcan, the blacksmith; "martial," for Mars, the warrior; "jovial," from Jove; "saturnian," from Saturn, and "mercurial" from Mercury, the nimble-footed.

Confidence and Success.

The man who has mastered his temper, disciplined his mind, schooled himself so as to conform to the amenities and pleasures of life is on the broad road to success, for others will be attracted towards him as the flies to honey, he will beget confidence, and confidence is one of the corner stones which must be laid before you can become a success. Just before you can commence to build the edifice called success.

Only Lent by God.

All things, my love, in this world pass away: wife, children, honor, wealth, friends and what else is dear to flesh and blood. They are but lent until God please to call for them back again, that we may not esteem anything our own or set our hearts upon anything but him alone, who only remains forever—Lord Baltimore, in a Letter of Sympathy, A. D. 1631.

Uncle Allen's Gloomy Forecast. "They say," reflected Uncle Allen Sparks, "that this new singer—what's her name—Tetterly something or other—Tetterly, is it? 'Thank you—well, they all say she's a greater singer than Patti. That's going to make trouble. The first thing you know, Patti will come back to this country and give another farewell tour, just to show 'em it isn't so, b'jucks!'"

Locuquity.

Gratiano speaks an infinite deal of nothing, more than any man in all Venice; his reasons are as two grains of wheat hid in two bushels of chaff; you shall seek all day for them, you find them; and when you have them, they are not worth the search.

Dress Very Simply.

Mme. Camille, a high-class Parisian woman, traveling in this country, says that the dress of the Indian women is simply six yards of silk, satin or crepe, of which the women have hundreds, and it is draped to fit the form every time it is put on.

Physical Drill for Women.

Physical drill is being enthusiastically adopted by the women of Bohemia and at a fête recently held at Prague no fewer than 2,400 women and girls took part in an Indian club display.

Place Duty First.

To hesitate is to yield, to deliberate is to lose; we must act always on principles; in doing our duty we must never pause to calculate consequences.—Agriculturist.

Show Understood.

The Widow—"The way to interest a man is to talk about what he is most interested in." The Maid—"But I soon tire of talking about what I am talking to."

A Lack.

"Are the preparations all made for your husband's trial?" "Not quite," responded the prisoner's wife. "One of my dressmakers got the grip and disappointed me."

The women of Chile maintain a high average of beauty. They are well featured and have beautiful complexions.

Uncle Allen.

"Speaking of the price of success," mused Uncle Allen Sparks, "I've noticed that getting ahead means, as a general thing, getting a bald head."

QUITS THE REPUBLICANS.

Ex-Chief Justice Guffy Will Go To Hearst National Convention.

Former Republican Chief Justice B. L. D. Guffy of the Kentucky Court of Appeals, headed the State's delegation to the national convention of W. R. Hearst's Independent party in Chicago on July 27 and 28. The members of the Big Four are Judge Guffy, of Butler county; J. E. Merrick, of Louisville; A. H. Cardin, of View, Crittenden county, and C. W. Neloms, colored, of Louisville. Merrick says that Judge Guffy has left the Republican party and will not only vote for the nominees of the Independence party for President and Vice President, but will make speeches for them.

Neloms, a colored preacher of Louisville, says that hundreds of negroes in Kentucky will affiliate with the Independence party. He declares that as between Bryan and Taft a big percentage of negroes are for Bryan, but when the Democrats failed to adopt a "negro plank" at Denver, many of these men determined to vote for the nominees of the Independence party.

Neloms declares "that no race-loving negro can vote for Taft for President."

PROHIBITION PLATFORM.

The Prohibition party of the United States, assembled in convention at Columbus, O., July 15-16, 1908, expressing gratitude to Almighty God for the victories of our principles in the past, for encouragement at present and for confidence of early and triumphant success in the future, makes the following declaration of principles and pledges their enactment into law when placed in power:

First—The submission by Congress to the several States of an amendment to the Federal Constitution prohibiting the manufacture, sale, importation, exportation and transportation of alcoholic liquors for beverage purposes.

Second—The immediate prohibition of the liquor traffic for beverage purposes in the District of Columbia, in the Territories and all places over which the National Government has jurisdiction; the repeal of the internal revenue tax on alcoholic liquors and the prohibition of the interstate traffic therein.

Third—The election of United States Senators by direct vote of the people.

Fourth—Equitable graduated income and inheritance taxes.

Fifth—The establishment of postal savings banks and the guaranty of deposits in banks.

Sixth—The regulation of all corporations doing an interstate commerce business.

Seventh—The creation of a permanent tariff commission.

Eighth—The strict enforcement of law instead of the official tolerance and practical license of the social evil which prevails in many of our cities, with its unspeakable traffic in girls.

Ninth—Uniform marriage and divorce laws.

Tenth—An equitable and constitutional employers' liability act.

Eleventh—Court Reviews of Postoffice Department decisions.

Twelfth—The prohibition of child labor in mines, workshops and factories.

Thirteenth—Legislation basing suffrage only upon intelligence and ability to read and write the English language.

Fourteenth—The preservation of the mineral and forest resources of the country and the improvement of the highways and waterways.

Believing in the righteousness of our cause and in the final triumph of our principles, and of the unwillingness of the Republican and Democratic parties to deal with these issues, we invite to full party fellowship all citizens who are with us agreed.

declining health for about a year.
Her condition became so serious
that on Thursday she was confined
to her bed. On Sunday, July 26,
1908, at 8 o'clock p. m., her spirit
returned to God. She was the
daughter of Henry Reid, and was
born in this county, February 21,
1847, hence was in her 62nd year.
She was married to Dr. E. C.
Bright, of Henry county, May 9,
1866. The family moved from
Emineuse to this city 29 years ago.
Of their children, three are living:
Henry R., Mrs. Marion Cockrell
and Miss Lou Ella, of this city.
Of her father's family only a sis-
ter, Mrs. Allen Brewitt, survives
her. The funeral service was held
at the Clay street residence on
Tuesday afternoon at 2 o'clock by
Rev. H. D. Clark and the burial
was in Macphelah. For many
years she has been a member of
the Christian Church. To her family
we extend our sympathy. The
news of her serious condition
reached her son, Henry, in Penn-
sylvania and he arrived at home
on Saturday.

BROKEN HEART

The Vice Admiral Rojestvensky Lost Fleet in Japan Sea.

Vice Admiral Rojestvensky, who commanded the ill-fated Russian fleet which was annihilated by the Japanese in the Sea of Japan in May, 1905, died July 29 from heart trouble.

It is believed that the heart affection resulted from injuries received by Admiral Rojestvensky in the battle of the Sea of Japan, but there are those who say that his defeat in the Sea of Japan and his subsequent punishment broke his spirit and hastened death.

P. S.—Later report says the dead man is not Rojestvensky.

To Defy The Libel Law.

London is to have a daily paper which will defy the rigorous libel laws, which are feared and usually respected by all other journals published in Britain. The new paper will print news and comment which would render any other publication liable to heavy damages for libel, and will ignore the existence of the libel laws.

To make the success of this sheet possible, it will be edited, published and printed on foreign territory. Its office will be at some town on the French or Belgian coasts, from which copies can be mailed to reach London by the first delivery. Thus the English laws will be evaded.

Obedience of an Indian Boy to His Parents.

There is a custom which embodies the wisdom of Solomon, observed by the Pueblo Indians. Once a year, an Indian, garbed in the skin of a mountain lion, which represents his god, whips such of the children of the community as are between the ages of four and ten, both for the wrong they have done and the wrong they are going to do. The happiness of these children, who have paid the penalty of their misdoings for a year in advance, is difficult to estimate. The respect of the Indian boy for his elders, and his obedience to his parents, testifies to the efficacy of this treatment and suggests the wisdom of its introduction to the gilded youth of the metropolis. NO LIQUOR ON TRAINS.

Illinois Central Ends Traffic South of the Ohio.

At Chicago, General Passenger Agent Samuel G. Hatch announced that the Illinois Central Railway Company has decided not to allow the sale of liquor on any of its diners or buffet cars south of the Ohio river.

"There are so many local option States along our road," he said, "that we have decided not to permit the sale of any intoxicating drinks south of the Ohio. Texas has had a law similar to that of Louisiana in force for some time and its effect, I understand, has been beneficial to all concerned."

Why He Does It.

"It isn't often that I have faith enough in the medicines put up by other people to be willing to offer to refund the money if it does not work," said druggist W. S. Lloyd to one of his many customers, "but I am glad to sell Dr. Howard's specific for the cure of constipation and dyspepsia on that plan."

"The Dr. Howard Co., in order to get a quick introductory sale authorized me to sell the regular fifty cent bottle of their specific for half-price, 25 cents, and although I have sold a lot of it, and guaranteed every package, not one has been brought back as unsatisfactory."

"I am still selling the specific at half-price, although I cannot tell how long I shall be able to do so. Any person who is subject to constipation, sick headache, dizziness, liver trouble, indigestion or a general played out condition, ought to take advantage of this opportunity." jul29aug19

MAYOR'S PROCLAMATION.

Call to Observe Notification Day.

By formal proclamation, Mayor Markbreit called on all Cincinnati to observe Tuesday, July 29, as a holiday in honor of William H. Taft, who was notified that he had been chosen candidate for the presidency.

Over Thirty-five Years.

In 1872 there was a great deal of diarrhoea, dysentery and cholera infantum. It was at this time that Chamberlain's Colic, Cholera and Diarrhoea Remedy was first brought into use. It proved more successful than any other remedy or treatment, and has for thirty-five years maintained that record.

From a small beginning its sale and use has extended to every part of the United States and to many foreign countries. Nine druggists out of ten will recommend it when their opinion is asked, although they have other medicines that pay them a greater profit. It can always be depended upon, even in the most severe and dangerous cases. For sale by R. H. White & Co., Druggists. 51-5t

Talks Some More.

Honesty in business and a defense of the Denver platform, with respect to publicity, before election, of campaign contributions, formed the themes of two addresses made on Wednesday by W. J. Bryan. IN CERTAIN TONE

Gompers Tells Labor To Stand By Its Friends.

Samuel Gompers has spoken in no uncertain tones in an editorial in the organ of the American Federation of Labor. He points out plainly what he, as president of the great labor organization, thinks is the duty of laboring men in this presidential election, and his utterances have created a sensation and will be read with the keenest interest all over the country. This editorial will be reproduced by labor papers everywhere, the Democratic dailies will have it and the Democratic committees will see that the statement of Gompers has the widest circulation.

Gompers expressed the belief that labor will solidly support the candidates of the Democratic Convention. While disavowing an intention "to deliver the labor vote," he expresses the opinion that the worker will have to answer to his fellow-workers as well as his conscience if his action is contrary to the political course that is pointed out for him. An argument is submitted with the intention of proving that the Republican party is the enemy and the Democratic party the friend of labor, and it concludes with a call to the workers to defeat their enemies for all offices, presidential, legislative and judicial.

MILD IN TONE.

In tone the editorial is mild, and an acceptance by labor of the conclusions drawn is assumed. It begins with this:

"The President and members of the Executive Council of the American Federation of Labor attended the Republican conventions for the purpose of presenting labor's demands and asking their incorporation in the platform in a manner which should clearly affirm the position of the workers, especially in relation to the abuse of the injunction and the right to organize and to carry on the legitimate business of organization without being classed as trusts under the Supreme Court interpretation of the Sherman anti-trust law."

"These, because they deal with fundamental principles of right, freedom and justice, are the two most important issues raised on the part of labor."

"The National Convention of the Republican party at Chicago refused to incorporate the demands of labor in its platform and, instead, inserted a plank on injunctions which indorses the existing abuse of the injunction as applied to labor disputes. The Democratic Convention at Denver, on the other hand, made labor's demands a part of the platform."

Pertinent Comment on Prohibition Convention.

With the two big National Conventions over, the country has enjoyed during the last few days a slight respite from politics. The Prohibition gathering at Columbus has excited no great interest, and notwithstanding the growing local option sentiment and the spread of State prohibition, the Prohibition vote does not promise to be unusually large. The proceedings at Columbus have attracted but little attention, being devoid of spectacular feature. Even the controversy over woman's suffrage attracted little attention.

The utility of the Prohibition party as a movement in national politics is emphasized by the fact that while the party has grown but little since it was first organized, there has been a constant increase in the public sentiment for the more rigid regulation of the liquor traffic and the area covered by local option and State prohibition has constantly been extended.

Prohibition is not yet a national issue. The efforts to this end have not yet made an impression of consequence. The present prospect is that for many years to come this question will be confined principally to local and State politics, since the regulation of the liquor traffic is only remotely related to the industrial problem which involves all the really vital political issues of the day.

We may eventually have a national campaign that will turn upon the question as to whether the Federal Government will prohibit the manufacture and sale of intoxicating liquors, but there are many other problems to be solved first. The agitators for local option and State prohibition who are not identified with the Prohibition party as a national political movement seem, to have accomplished much more in the way of alleviating the evils of the traffic than those who attempt the hopeless task of making this question an issue in national politics.—Lexington Herald, July 19.

Keep Your Nerve

It is nerve energy that runs the organs of your body. The storage battery is the nerve cells in the brain and spinal cord, and from this battery nerve force is sent out through the system of nerves. To keep the body healthy you must have plenty of nerve force; if you have not, the organs work imperfectly, the circulation is sluggish, digestion bad, appetite poor, kidneys inactive, and aches, pains and misery are the penalty.

You can keep the system strong with Dr. Miles' Nerve. It assists in generating nerve energy; it strengthens the nerves and makes the whole system strong and vigorous.

I take pleasure in recommending Dr. Miles' Nerve to those suffering from nervous prostration, insomnia and melancholy. After several months suffering from above diseases I tried this medicine and found immediate relief. It soothes and strengthens the nervous system, dispels the gloomy and depressing thoughts and gives the sufferer renewed strength and hope. It is a superb nerve restorative.

JUDGE JACOB SEIDMAN, Madison, Wisconsin. Dr. Miles' Heart Cure is sold by your druggist, who will guarantee that the first bottle will benefit. If it fails he will refund your money. Miles Medical Co., Elkhart, Ind.

THE STATE UNIVERSITY LEXINGTON, KY.

The State University, Lexington, Kentucky, offers the following courses, namely: Agricultural, Mechanical Engineering, Civil Engineering, Electrical Engineering, Mining Engineering, Chemical Engineering, and seven Scientific courses each of which extends over four years and leads to a Bachelor's degree; also a Department of Law and Department of Education, which has been recently added to the Normal School. Persons who enter this department prepare for advanced work in pedagogy and are granted a Bachelor's degree in this subject when completed. The Academy for preparatory instruction is retained. Country expenses reduced free tuition, private residence in dormitories, fuel and light, and clothing expenses. If they remain in the campus, five months, or one collegiate year.

The laboratory and museum are large, well equipped, comprehensive and modern. Military study is fully prepared for as required by Congress.

The graduates in the several courses of study readily find employment with liberal remuneration. The total number of matriculations for last year was 1075. Each department has a specialist in its field, with the necessary number of assistants.

Young women find an excellent home, with board and lodging, in Patterson Hall, which is well equipped with all the modern conveniences, bath-rooms, hall for physical culture, at \$1.00 per week. All of course of study in the university are open to women on identical conditions with those applying to males.

The completion of the Agricultural, Mining Engineering, Laboratory and Mechanical buildings added ample and commodious quarters for those departments.

For catalogue methods of obtaining appointments, information regarding courses of study and terms of admission, apply to JAMES K. PATTERSON, Ph. D., LL. D., Pres. or to D. C. FLACK, Business Agent.
